WHOLESALE MANUFACTURERS OF

Doors, Sash, Blinds

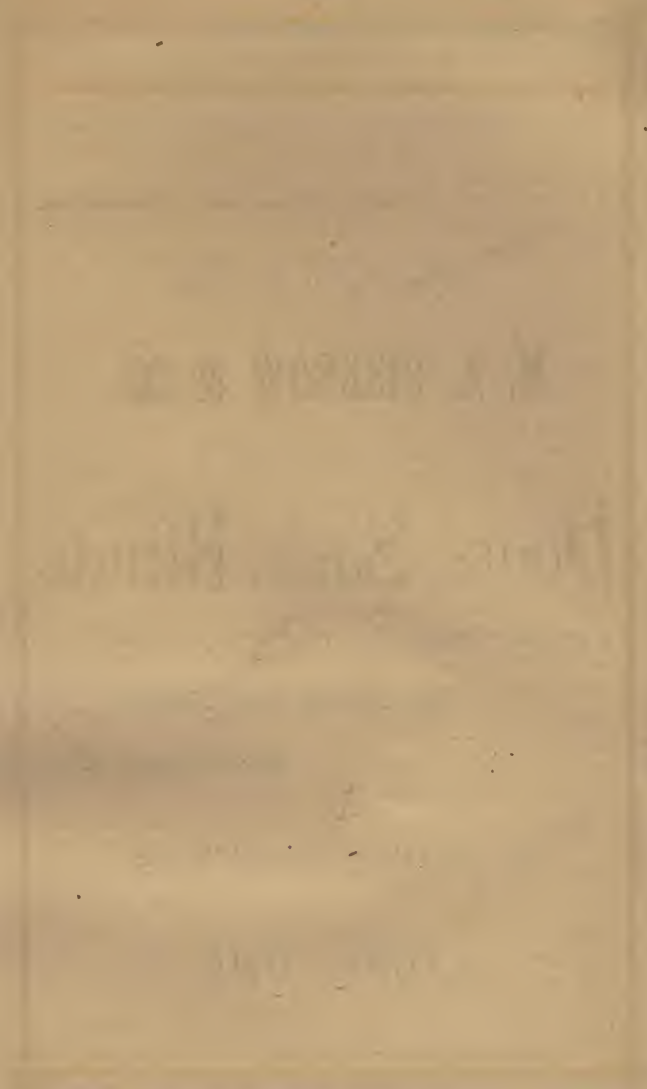

Stairs, Stair Railing,

Balusters and Posts,

Mouldings, Etc.

BUILDING PAPERS.

LYONS, IOWA.

Lyons, Iowa, March 1, 1884.

Gentlemen :

We hand you herewith our revised Price Current for the present season.

Owing to the very liberal patronage of our patrons, and finding it impossible to meet their demands, we have during the past winter and fall built a large warehouse, rebuilt and added to our Factory, increased it in capacity more than double, with new machinery of the latest patterns.

That we may be able to fully meet these requirements we have incorporated as "M. A. Disbrow & Co.," with M. B. Copeland, Sec. and Treas., and H. Wentworth, Supt.

We are confident, with our new and practical firm, your wants will be supplied in the best possible manner.

Our Factory is virtually new, and with the addition of new and modern machinery of every kind that will facilitate and cheapen the manufacturing, we feel safe in assuring you that all orders intrusted to us will be executed promptly, and unequalled in workmanship and quality.

Estimates, Price Lists and Moulding Books, or any information in our line, furnished promptly on application.

Soliciting your orders for goods in our line, with the assurance that they will have prompt attention, with the best goods the market affords, we are, truly yours,

M. A. DISBROW & CO.

Please observe the following Directions in giving orders, as it will often avoid errors and unnecessary delays.

Orders for Sash should state the size of glass, number of lights in a window, thickness, if plain or check rail, glazed or unglazed. For segment or circle corner windows, always give the radius of the segment and circle corner. For circle head, segment head, and circle corner windows, *always state* whether they are wanted to finish circle inside and outside like Figures A and C, on page 6, or to finish circle on outside only, as Figures B and D on same page. Also, where frames are made, the width and height of frame in the clear should be given.

Orders for Doors should state size, thickness, number of panels, and if first or second quality; if moulded, say if one or both sides, sunk or raised moulding.

Orders for Outside Blinds should state size of glass, number of lights in window; thickness of Blinds; if for segment head windows, give radius of segment; also, if for wood or brick building.

Orders for Inside Blinds should state exact size of opening, the number of folds (width of box, if any), and if panels or slats, and where Blinds are to be hung.

Orders for Mouldings should give the number of Moulding, and *state particularly* the number of the page on which it appears and *the date of the book from which it is taken*. Our new Moulding Book for 1884 will be found to contain the best assortment of designs we have ever furnished. It will be sent free upon application.

P. S.—We will deliver our goods and load in cars (with our own men) free of charge, to any lumber yard in the city, and would request our customers to order Doors, Sash, Blinds, etc., DIRECTLY OF US, which will insure their receiving our own manufacture and prompt attention. In giving such orders, we would suggest to our trade to always order our goods a little in advance of their Lumber, and notify their Lumber men of the fact of our having goods to be loaded in their cars.

SPECIAL NOTICE.

Do not take it for granted that what you want will be understood unless you are explicit.

It is economy to conform to regular sizes and styles as much as possible.

When ordering style of work different from what is embraced in list, it is often necessary to give sections, sometimes elevations.

Use terms, when practicable, as given in this book.

In giving sizes of Sash, Doors or Blinds, name width first.

A Window indicates two pieces, and will be shipped glazed, except otherwise ordered.

A Sash indicates one piece.

A Blind indicates one piece.

A pair of Blinds indicates two pieces.

A set of Sash or Blinds indicates more than two pieces, and order should be accompanied with elevation.

OBSERVE DIRECTIONS ON PAGES 4 AND 5 IN GIVING YOUR ORDERS.

Always give the *radius* of the *segment*, otherwise the regular radius, which is the width of the window, will be made.

GLAZED WINDOWS.

We make a specialty of Glazing, and have always in stock a large assortment of twelve, eight and four-lighted Windows, both check and plain rail. We use the best American Glass, *and always bed the glass in putty in our Check Sash.* We offer superior inducements to buyers by the car load or single window. Parties who desire it can have their windows glazed with French or English Glass, of the best quality, at reasonable prices. Our glazed sash can be shipped by rail or boat to a great distance without breakage, as we pack them securely.

THE KELLY PATENT WINDOW BLIND.

Having secured the right to manufacture these Blinds of the patentee, we are prepared to furnish them on short notice. The protection of these Blinds when the slats are closed, against wind, rain, dust or the rays of the sun, over the ordinary Window Blind, has brought them into extensive use, and they have given universal satisfaction. They are equally adapted to both outside and inside. Small samples of these Blinds sent free, upon application.

ROPED, RIBBON, SPIRAL AND BEADED MOULDINGS.

Particular attention is called to the variety and styles of these Mouldings, ranging in size from $\frac{3}{8}$ inch to 5 inches in diameter. Circles of all sizes worked to order.

EASTLAKE FINISH.

We can furnish this finish in the latest styles on short notice. Have a large staff of first-class workmen, and can guarantee quality and beauty of execution equal to anything to be found in this country. We give a few new styles in our Moulding Book, just issued, and will be pleased to furnish estimates to any one contemplating the use of this latest style of ornamentation.

WOOD-CARVING.

In connection with our Eastlake finish department, we employ a number of carvers, and are prepared to furnish any kind of work in this line also at reasonable prices and of beautiful workmanship.

MANUFACTURERS OF

 STAIRS 

Stair Railing, Balusters,
NEWEL POSTS, MANTELS,

Bank Counters, Pew Ends, Etc.,

OF EVERY DESCRIPTION,

BOTH PLAIN AND FANCY,

—OF—

Hard or Soft Wood.

LYONS, IOWA.

Stairs, Stair Railing, etc.

Pine and Whitewood Balcony Balusters and Railing of every description made to order.

We have a large stock of Newel Posts, Balusters, Stair Railing, Stair Brackets, etc., always on hand, which we will take pleasure in showing to our customers.

Our patterns or styles of Railing, Balusters and Posts, a few of which may be found in this book, are the latest and most improved; such as we are furnishing in this city and throughout the Northwest. The prices given for Railing are for Straight Rail. We estimate cost as follows:

For Balusters	\$.....
“ Posts
“ Crooks sawed out in rough.....
“ Rail Bolts
“ Time working Crooks and fitting Rail
No. feet of Straight Rail.....

Directions Necessary for Ordering Stairs and Stair Railing.

When a flight of stairs is wanted, we should know the height of story from floor to floor, width of joist in second story, width and run of stairs, the size of cylinder, style of base used in the hall, with rough sketch showing about the shape of stairs wanted.

For Stair Railing, Straight Flight, we require the width of rise and step as sawed out on string board, the number of risers, the size of cylinder from face to face of string or face board, which way it turns at head of stairs, and the number of feet of straight rail required at landing. Unless we receive plan showing otherwise, we always suppose the top riser for a straight flight of stairs to be placed at the edge or spring of cylinder.

For Circular or Winding Stairs, we should have an exact plan of stairs as built, giving the width of rise and step, the location of risers in cylinder, etc.; and when there are straight steps below or above the cylinder, always give the distance from the first square riser to the edge or spring line of cylinder, on the face of string or face board. *Always write your address in full on the plans.*

Hard Wood Flooring.

We keep in stock and are prepared to furnish promptly, *seasoned* Red Oak, Ash, Black Walnut or Maple Flooring and Ceiling, any widths desired.

Brackets of any size or style made to order. Scroll Sawing, Ornamental Carving, etc. For styles and designs send for our Moulding Book, which we furnish free of charge.

Fancy Turned Balusters.

We turn all our Stair Balusters 2 ft. 4 in. and 2 ft. 8 in. long, and keep these lengths always in stock. Are prepared to furnish, on short notice, any length or styles desired. Odd lengths cost extra.
